# Eternal Energy Donates 70,000 Energy Shots To Troops Overseas

*Auburn Hills, MI - December 05, 2012* - Eternal Energy is proud to partner with the Michigan branch of Operation Care Package in donating a whopping 70,000 bottles of Eternal Energy Shot to American troops overseas.

*" After seeing a surprisingly large amount of sales coming from military bases here in the US, as well as reviewing a substantial amount of feedback from troops overseas, we recognized that our soldiers really benefit from our product." said Andrew Krause, President of LXR Biotech, LLC; the producers of Eternal Energy Shot."*

The fact is that many soldiers have difficulty accessing energy products in Iraq and Afghanistan, so the shots have become something of a valuable and rare item overseas.

After recently returning from his second deployment, Army Sniper, Sgt. Jason Hale understands the value of the 1.93 oz dietary supplement. *"As a soldier in a war zone, you can't afford to let your guard down, or run out of energy for that matter. I'm so thankful for Eternal Energy Shot helping me stay alert and energized during those long missions and difficult conditions."*

Michigan-based Eternal Energy partnered with the local branch of Operation Care Package: a non-profit, volunteer run organization that gathers donations and sends care packages and letters to our men and women overseas.

One of the nation's best selling energy shots, Eternal Energy Shot is made in the USA using the highest quality ingredients available. Eternal Energy is available in Berry, Grape, Tropical Punch, and Pomegranate flavors. Select flavors can be found nationwide at Walmart stores.
